Dr. Joshua Lederberg
Assistant Professor of Genetics
University of Wisconsin
College of Agriculture
Madison 6, Wisconsin

Dear Dr. Lederberg:

Our letter of thanks to you for cooperation in connection with publicity at the Detroit meeting of the Federation of American Societies for Experimental Biology was similar to letters written to all authors whose work we publicized.

We happened to write to you because of the publicity given to a paper by Dr. Davis of the U. S. Public Health Service. In his paper Dr. Davis cited your work. Therefore, when our letters of thanks went out to authors who had helped us, you were included because your name was mentioned in one of our news stories.

Sincerely,

Ralph A. Rohweder
Executive Secretary
